SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

Commercial Driver Protest, SR 99 and Hwy 5 (New / Final)

On 10/06/17, the California State Warning Center (CSWC) was notified of several hundred commercial vehicles protesting regulations that will be imposed on the trucking industry. Per the Cal OES Law Duty Officer, the California Highway Patrol (CHP) advised that it had 40 officers assigned to this event and monitored through the duration of the event. There were no requests for mutual aid. CHP did advise that at times motorists exited their vehicles in the roadway and impeded traffic, but most of the demonstration remained peaceful. CHP made no arrests.

- Cal OES Law Enforcement Branch contacted jurisdictionally involved Sheriff's Offices so they had advance notice and given the event support if needed.

US&R Deployment - Hurricane Maria

Mission Number 2017-FIRE-38901 (FEMA Activation). Resources requested in support of Hurricane Maria impacts:

- California US&R Red Incident Support Team (IST) – 2 personnel from California

US&R Deployment – Tropical Storm Nate

Mission Number 2017-FIRE 39182 (FEMA Activation). Resources requested in support of Tropical Storm Nate impacts:

- California US&R White Incident Support Team (IST) – 5 personnel from California

Cal OES EMAC Missions

- **2017-Cal OES-38848:** One (1) Cal OES staff and one (1) California Volunteers staff to report to the Florida State EOC for response operations that will assist and supplement ESF-15 staff in coordination of Volunteers and Donations Management at local Emergency Operation Centers. Both staff deployed on 09/16/17. Deployment has been extended by an additional two weeks. Demobilization is now scheduled for 10/12/17.
- **2017-SOC-38856:** One (1) Public Assistance (PA) Coordinator from the state of New Jersey has been assigned to California through the EMAC system. The PA Coordinator traveled to California on 09/17/17 and reported to the JFO on 09/18/17.

CDPH ZIKA VIRUS / HEPATITIS A VIRUS UPDATE

EXECUTIVE SUMMARY

The Medical and Health Coordination Center (MHCC) continues to be activated in response to Zika virus disease. The California Department of Public Health (CDPH) and Emergency Medical Services Authority (EMSA) are currently the only Emergency Function 08 (EF 08) partners at the state level reporting on this activation.

The MHCC is coordinating with EF 08 partners, healthcare facilities and local health departments (LHDs) to ensure responses to inquiries are timely and accurate. CDPH and EMSA Duty Officer Programs are monitoring Zika virus disease after hours and communicating with the Regional Disaster Medical and Health Coordination (RDMHC) and the Medical Health Operational Area Coordination (MHOAC) Programs throughout California.

CDPH and EMSA Duty Officer Programs are monitoring Zika virus disease after hours and communicating with the Regional Disaster Medical and Health Coordination (RDMHC) and the Medical Health Operational Area Coordination (MHOAC) Programs throughout California.

As of Friday, 09/29/17, there have been 593 travel-associated Zika virus infections in California. Five new cases have been reported since the last situation report dated 09/22/17. CDPH centers and programs continue to monitor Zika virus disease and provide information to the MHCC related to their specific activities on a weekly basis.

On 09/20/17, the MHCC was activated in response to a large hepatitis A outbreak in California. The majority of patients in this outbreak report being homeless and/or using illicit drugs. The outbreak is being spread person-to-person and through contact with an environment contaminated by human feces. The primary strategies for outbreak control are vaccination and improving access to sanitation. The Centers for Disease Control and Prevention (CDC) notes that person-to-person transmission through close contact is the primary way people get HAV in the United States.

Los Angeles, San Diego and Santa Cruz Counties have declared local outbreak status. Outbreak associated cases have been confirmed in other California jurisdictions.

Please see attached for full report

WEATHER OF CONCERN

Weather of Concern

- High Pressure is producing strong and gusty winds, combined with high temperatures, the National Weather Service (NWS) has issued several Red Flag Warnings for portions of Northern and Central California that will exist through the evening of 10/08/17.
- **Active Weather Warnings, Watches and Advisories by County:**
- <https://alerts-v2.weather.gov/counties/CA>

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

***** "High Risk" Significant Fire Potential in some areas west of the Cascade/ Sierra crest Sun/Mon for rather strong, gusty N to E winds/low Relative Humidity (RH) *****

The weather pattern over the region will be changeable over the next week. Dry weather is expected over the region for the next 5 days. The next few days will have very low RH with poor overnight recoveries even in some areas without much wind. High pressure moving into the Pacific NW this weekend will generate another round of relatively strong, gusty N to E winds and low RH for our region. "High Risk" of Significant Fire Potential is in place for many areas west of the Cascade/ Sierra crest Sunday into Monday. The Sacramento Valley/Foothills (NC05) will see windy conditions develop starting early Sunday, followed by the Mid Coast (NC02), North Coast (NC01) and Diablo-Santa Cruz Mountains (NC03B) Predictive Service Areas (PSAs) Sunday afternoon. The winds will continue Sunday night but are expected to diminish significantly by or around midday Monday depending on the area. Low RH (10-20%) and poor overnight recovery will occur in many areas with or without wind through Tuesday before RH increases some. Wind speeds will be 10-22 mph with most gusts ranging from 25-35 mph, but local gusts around 40 mph will be possible. By Tuesday night it looks like a trough will move into place along the coast then move inland the latter half of the week. This will cool things down and bring RH up considerably, and it may also bring some wetting rain to the northern areas and eastern mountains Thursday and Friday. The warmest inland areas will be in the mid and upper 80s today, near 80 Sunday through Wednesday then could drop to near 70 late next week.

SOUTHERN CALIFORNIA

*****Very warm and dry today*****

*****Strong offshore winds and very dry Monday*****

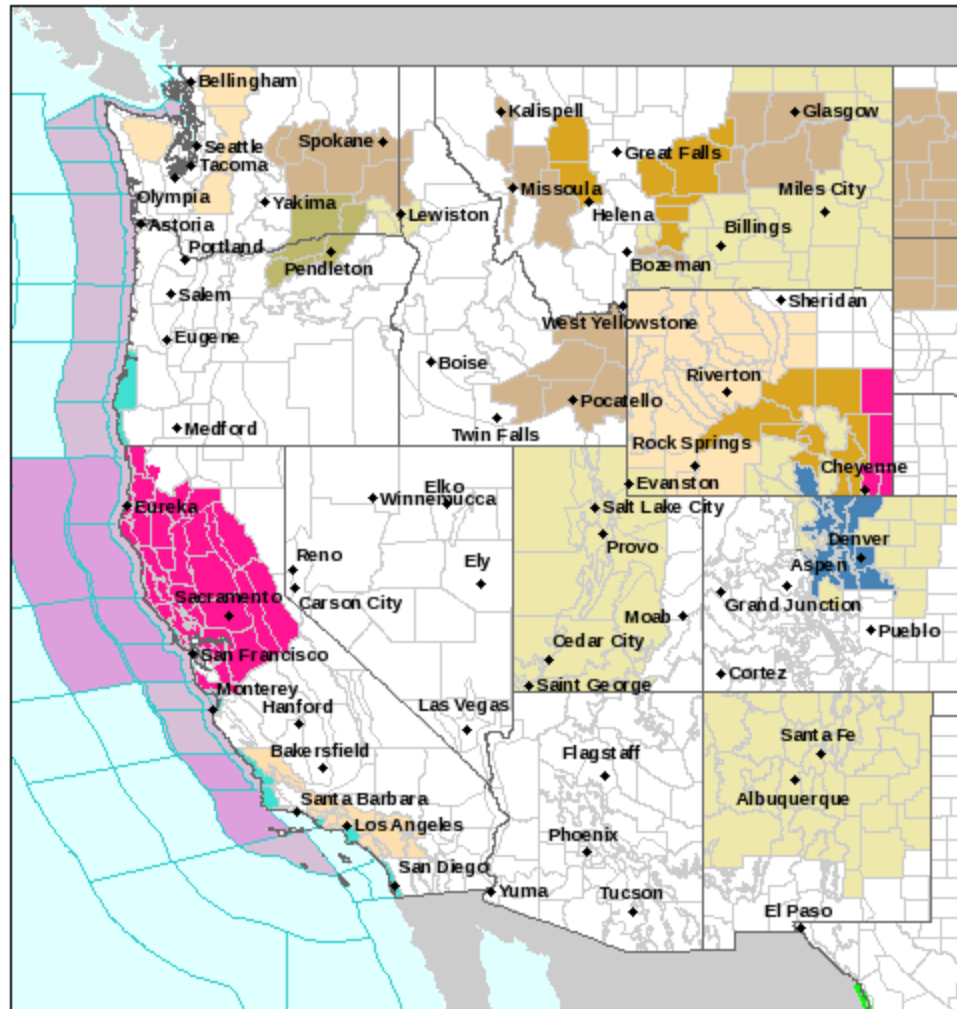

*****Very dry Tuesday*****

A ridge of high pressure off the California Coast will continue to bring very warm and dry conditions to the region today. Maximum temperatures will warm a couple of degrees, with mid 70s to mid 80s across the mountains and upper 80s and 90s in the valleys. Minimum humidity will remain in the single digits and teens. Temperatures will cool to the 60s to low 70s across the mountains and mid 70s to mid 80s in the valleys Sunday as a trough drops into the Great Basin from the Pacific Northwest. Minimum humidity will increase to above 20% across most of the region Sunday. This trough will also bring westerly winds of 20 to 30 mph with gusts to 50 mph to the wind prone mountain and desert areas Sunday. Strong surface high pressure will set up over Southern Idaho bringing northeast winds of 20 to 40 mph with gusts to 60 mph to the mountains and below the canyons and passes of the region Monday. Temperatures will cool another 5 to 10 degrees across the mountains and deserts on Monday, but temperatures will warm a couple of degrees across the coastal and valley areas. A weak ridge aloft will move over California bringing a few degrees warming to the entire region Tuesday. Minimum humidity will drop back into the single digits and teens Monday and Tuesday. A cooling trend and an increase in humidity will take place Wednesday through the end of next week as a weak Pacific trough sits over the West Coast. There will be westerly winds of 15 to 25 mph with gusts to 40 mph across the wind prone mountain and desert areas Wednesday through the end of next week.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2017-LAW-39174, 10/05/17, 1445 hours:** The Riverside County Sheriff's Office requested the assistance of an over the water cadaver canine for an adult male subject who had presumably drowned while boating at Lake Perris State Recreational Area, Perris CA., on Monday 10/02/17. SoCal CARDA sent a K-9 and handler for the mission which was scheduled for 10/06/17 at 0700 hours. **Update, 10/06/17, 1700 hours:** [Riverside County Sheriff's Office re-contacted and advised that missing subject had been recovered downstream earlier in the day, just before the K-9 was deployed.](#) **Mission Closed.**

Cal OES MISSION TASKING

Cal OES Missions

- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.
- **2017-Coastal-37716:** One Air Monitor for Humboldt County (On Scene)
- **2017-Inland-37776:** Two Air Monitors for Mariposa County (On Scene)
- **2017-Inland-38039:** Five California Air Resources Board (CARB) air monitors have been placed in Siskiyou County to monitor smoke from numerous wildfires in Siskiyou County as well as smoke drifting into Siskiyou County from wildfires in Modoc, Trinity, Del Norte and Humboldt counties. (On Scene). Siskiyou County is working with CARB to schedule a removal date of the monitors.
- **2017-SOC-38645:** One California Department of Transportation Archeologist to support the Joint Field Office (JFO) from 09/27/17 to 10/27/17. In coordination with a Cal OES Senior Environmental Planner, the Associate State Archeologist will review Disaster Damage Descriptions for potential California Historical Resources Information System (CHRIS) requests and request CHRIS reports when necessary.
- **2017-Cal OES-38400:** One Air Quality E-BAM modem for Klamath (Del Norte OA)
- **2017-IREOC-38682:** DTSC Hazardous Waste Task Force (Helena Fire)
- **2017-IREOC-38683:** CalRecycle Debris Management Task Force (Helena Fire)
- **2017-Inland-37583:** DTSC Hazardous Waste Task Force (Detwiler Fire)
- **2017-Inland-37584:** CalRecycle Debris Management Task Force (Detwiler Fire)
- **2017-Cal OES-38725:** Caltrans to perform bridge inspections on the National Trails Highway, San Bernardino County (On Scene)
- **2017-Cal OES-39103:** Emergency Communications for Fleet Week in San Francisco County from 10/05/17 to 10/08/17.
- **2017-Cal OES-39160:** Communications Support for the Helena Fire, Trinity County.

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
